

A partner working to end the un-American alliance between corporations and our government

- ✓ Equality under the law
- ✓ Principle based advocacy
- ✓ Liberty for all
- ✓ Founding principles
- ✓ Dignity for every individual
- ✓ Corporate and government accountability
- ✓ Enforcing the right to self determination
- ✓ Minority rights
- ✓ Employment through Innovation
- ✓ Blind justice

Reinvigorating the American Experiment

Equality under the Law

It is no longer acceptable for government to be bailing out corporations that finance their campaigns. Equality under the law means that all people have an equal right to succeed and fail. Our children's future will no longer finance today's corporate failures.

Liberty for All

In any proper society, no person needs to request rights from some elite group of lawmakers. Our rights come from nature and are self evident.

*"Those who can give up essential liberty to obtain a little temporary safety, deserve neither liberty nor safety."
Benjamin Franklin*

Principle Based Advocacy

A person of principle is a man or woman who will put aside their personal preferences in order to advocate for what is right.

Founding Principles

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their creator with certain unalienable rights, that among these are life, liberty and the pursuit of happiness. That to secure these rights, governments are instituted among men"

Enforcing the right to self determination

No person should ever be forced to live for the sake of another person. If a free society includes the right to personal property, what property is more personal than one's body and life? As long as a person respects the equal rights of others, their lives are their own to do with as they wish.

Corporate and Government Accountability

Only through citizen awareness and the demand of the voting public that crimes committed by those in the private and public sector are punished, will proper governance be achieved.

Minority Rights

The smallest minority in the world is the individual. It is impossible to advocate for minority rights without also advocating for individual rights.

Employment Through Innovation

Only those with the courage to risk their sweat and savings create wealth. Most that try will not succeed. The only way to truly create jobs is by making the reward for risk taking as great as possible.

Dignity for Every individual

Dignity can never be given, it must always be earned. Only with the freedom and right to live one's life as one sees fit can true dignity be achieved

Blind Justice

Equality and justice for all regardless of race, creed, color, sexual orientation, and wealth.

The Worcester County Tea Party Mission Statement:

The Worcester Tea Party is a response to the never ended intrusion of government into the personal lives of all individuals. Our membership includes people from all walks of life. Our members are united by their support for:

- The return to our founding principles of individual responsibility and limited government.
- Sound fiscal policy from Washington, Beacon Hill, and City Hall.
- The reduction of the tax and regulatory burden heaped on businesses, communities and families here in the Commonwealth and across the country.
- Transparency as the means to hold our leadership accountable for their complete disregard for American principles.

The Worcester Tea Party seeks to accomplish these objectives through recruiting, educating, organizing, and mobilizing the citizens of greater Worcester County.

Why the Worcester County Tea Party?

The Worcester Tea Party is a local, all volunteer, non-profit organization. Across the greater Worcester County area we are building the bottom-up organization to return our country back to the principles that made her great.

We need to connect with our neighbors to form strong local groups, ready to take on whatever challenges we face. Together, there's no limit to what we can achieve.

The Worcester Tea Party has become the heart of a network of Tea Party groups sprouting up all over Massachusetts. We share information and ideas with other local Tea Parties across the country.

Why You?

Our task is enormous. The Tea Party movement has re-awakened the power of the citizen activist in our country. To succeed, we'll need all Americans no matter how they may have voted, to join us in the work ahead.

Nothing is more powerful than your voice in your community. Your voice can support leaders who share our values, and are ready to carry forward our fight for individual rights. Make your voice heard and restore fiscal sanity to Washington DC, the State House and in all the cities and towns of the Commonwealth.

"Government big enough to supply everything you need is big enough to take everything you have. The course of history shows us that as a government grows, liberty decreases." - Thomas Jefferson

"It does not require a majority to prevail, but rather an irate, tireless minority keen to set brush fires in people's minds." - Samuel Adams

"The liberties of our country, the freedoms of our civil Constitution are worth defending at all hazards; it is our duty to defend them against all attacks." - Samuel Adams
